Importance: High
DSS:

Hi everyone,

Enclosed is the current version of the copy for the expanded quitting module of the website, containing some edits from the CT group.

I have reviewed the citations, and WSA is in process with their review. O?

I'm circulating this version to Howard and Tina for their review since I think we're getting close to a final product.

Since there is a lot of copy, and I would like to get input by the end of this week to ensure that product of the site proceeds smoothly and with a minimum of small copy changes, I have asked Lisa Senger to assemble a meeting for this Friday for a working and polishing session. This will include a smaller group of member of CT, Corporate Affairs, Legal, and WSA. Lisa will let all of you know who will be attending, and you can get your input into that session by sending your comments to me or contacting the member of your department who will be attending the meeting.

Thanks in advance for your attention and you help on the copy.

Stuart
